## SKILLS

-  PHP  
  - Building web applications and REST APIs using Laravel or Symfony.
-  Javascript  
  - Building interactive web applications with Vue or React
  - Creating plugins and Google Chrome Extensions.
-  SASS/CSS/HTML  
  - Transform a design into a stable CSS/HTML project using Bootstrap ready for development, familiar with search engine optimization (SEO).
-  Outils  

Git, Sublime Text, VS Code, Trello and Mac Terminal.

I am passionate about web programming, I like learning new programming skills and coding techniques to build fancy websites and powerful applications.

## EXPERIENCE

- 2018 • **Full Stack PHP Developer**  
Now *Auto-Entrepreneur*  

I listen to the market and respond to my clients' needs for creating their own website or web application.

I work with Wordpress and Prestashop for classic websites and Laravel and Vue, Angular or React for custom projects.
- 2015 • **IT Manager**  
2017 *Tailor Corner* 
  - Built a backoffice to manage supplies, users' orders, cms pages, MailChimp campaigns synchronization with the database... with Symfony 2.6 and node.js
  - Rebuilt the company's website UI with responsive in mind with Bootstrap and Javascript/JQuery.
  - Redesigned the company's website with a better UX.
  - Maintaining the company's website built with Laravel.
- 2013 • **Web Developer**  
2015 *Sypro Technologies* 

The company, with 16 web developers, creates static websites for business owners in France.

  - I created around 40 to 50 static websites every month with HTML/CSS3, Bootstrap and Javascript/JQuery.
  - I Saved half of the time needed to create a static website by building a website generator.

## EDUCATION

- 2015 • **Master In Design Engineering And Application Development**  
2017 *FST University*
- 2014 • **Bachelor's Degree In MIAGE (Business Informatics)**  
2015 *FST University*
- 2011 • **Diploma Of Vocational Training**  
2013 *ISGI Vocational High School*
